CLIMATIKA

Climatika è la bioclimatica Gaviota con lamelle regolabili da 0° a 135° gradi. Climatika è predisposta per chiusure perimetrali con vetrate panoramiche, tende verticali e frangisole. Luci led integrate nelle gronde e spot light integrati nelle lame

Climatika is a bioclimatic pergola by Gaviota whose adjustable louvers opening inclination ranges from 0 to 135 degrees. Climatika can be implemented with sliding glass systems, vertical awnings and sun protection systems. It is possible to integrate LED lights into the eaves and spot lights into the louvers

Climatika ist die bioklimatische Pergola von Gaviota mit verstellbaren Lamellen von 0° bis 135° Grad. Climatika ist für Perimeterabschlüsse wie Glasschiebesysteme, Vertikalmarkisen und Sonnenschutzsysteme konzipiert. In den Traufen integrierte LED-Leuchten und in den Lamellen integrierte Spotlichter
